The field of oral rehabilitation is the result of some experiences accumulation and competences in dental medicine that assumes access to new concepts and technologies which makes it one of the most dynamic brunches of medicine.

The Romanian Society for Oral Rehabilitation supports progress in this field and offers to all interested parties its own means of promotion but also education in dental medicine.

The Romanian Journal of Oral Rehabilitation, the post-graduate courses, the European Programmes and the Centre for Specialisation and Resource Formation in Oral Rehabilitation, all come to support and prepare for obtaining competences in different fields of dental medicine.

At its V-th edition, this Congress organised by ASRRO already demonstrated a level of maturity, supported by the subject which is a call for rigour, competence, in one word, excellence.

We hope that the new and pleasant opportunity to meet again on Moldavian ground will contribute to a fruitful experience and knowledge exchange among high level specialists and practitioners attending this event.

We warmly invite you to our congress with the conviction and with the firm believe that we can actively contribute to enhancement of communication and cooperation in this area of common interest.
